

CONFIDENTIAL

Fulfillment of the Food Consumption Plan in the Third Quarter of 1949
By doc issued by Ministry of Food 25 Nov 49 Confidential!

1. General Survey

The food plan in the third quarter of 1949 was fulfilled in the following manner:

	Czech Provinces		Slovakia		Total	
	III Quarter	II Quarter	III Quarter	II Quarter	III Quarter	II Quarter
Purchases	84.4	95.2	95.8	98.9	87.1	94.1
Imports	133.4	79.4	138.1	83.9	134.1	80.3
Production	92.9	94.8	73.7	88.4	89.7	93.8
Deliveries to market	84.8	103.4	97.2	85.9	86.1	99.9
Exports	127.6	93.4	15.0	59.3	59.9	91.1
Formation of reserves	114.4	75.5	259.5	69.9	131.0	72.6

The Czech Provinces show a better fulfillment of the plan as compared with the second quarter only with respect to imports, exports, and the formation of reserves. The plan for deliveries to market shows a drop, although the market was supplied quite steadily. The plan for deliveries to the market, not including beverages, was fulfilled by 86.6 percent in the third quarter in the Czech Provinces, and that including beverages by 83.4 percent. In Slovakia the plan, not including beverages, was fulfilled by 88.9 percent, and including beverages by 86.1 percent. The export plan was overfulfilled only in the Czech Provinces, while Slovakia fell down completely throughout the third quarter. Actual imports exceeded the plan by 33.4 percent in the Czech Provinces, and by 38.1 percent in Slovakia; this shows an over-all increase of 53.8 percent over the second quarter.

2. Principal shortcomings

The fulfillment of the plan for the third quarter was determined partially by adding reports for the entire quarter and partly by adding monthly reports. During the course of our work it became clear that even the Center was unable to help us collect data on meat and meat products for the third quarter. In judging the information on meat, therefore, it is necessary to remember that all the ~~figures~~ *estimates* on meat products are only estimates. This is true both of monthly and quarterly figures.

CONFIDENTIAL

CONFIDENTIAL

We determined our estimates according to the fulfillment of the plan during the second quarter and by questioning the Center it was ascertained that the data were acceptable. In order that this doesn't happen again, a council of participating planners will be called, where their concrete tasks will be presented to them again and they will be obliged both orally and in writing to deliver their report directly and within the specified period of time. This has been impossible up to now as a result of the tremendous amount of work connected with processing the data from the monthly plan.

The plan for the third quarter of 1949 was fulfilled in the following manner in individual products:

(1) Milk and dairy products

Purchases of milk are constantly around 100 percent both in the Czech Provinces and in Slovakia. Output is favorable, around 100 percent in the Czech Provinces and 142.1 percent in Slovakia. Deliveries to market fell to 86.7 percent in the Czech Provinces while they surpassed the plan by 67.9 percent in Slovakia. Imports of butter in the Czech Provinces reached 187.1 percent and in Slovakia 171.3 percent.

(2) Eggs

The purchase of eggs in the Czech Provinces was fulfilled only by 72 percent, while the plan was overfulfilled by 167.7 percent in Slovakia. This favorable fulfillment of the purchase plan influenced deliveries to market, so that the consumption plan was fulfilled by 131.1 percent in the Czech Provinces, and by 425.2 percent in Slovakia.

(3) Meat

Purchases of meat in the Czech Provinces are constantly far short of the planned quantity. Imports of pork and beef in the Czech Provinces were about 100 percent, while a considerable quantity of beef and pork animals was imported over and above the plan. Imports into Slovakia surpassed the plan by 25 percent in pork and in beef by 5 percent. Deliveries to market were only 61.7 percent of the plan in the Czech Provinces, and 64.5 percent in Slovakia.

- 2 -

CONFIDENTIAL

CONFIDENTIAL

(4) Fish and fish products

The supply of fish is satisfactory, considering the time of year. The plan for deliveries to market was fulfilled by 125.2 percent in the Czech Provinces, but by only 71.2 percent in Slovakia. Deliveries to market were influenced by imports, which surpassed the plan by 32.5 percent in the Czech Provinces but which was fulfilled by only 19.1 percent in Slovakia.

(5) Fats

The supply of artificial, edible fats and lard was 108.3 percent in the Czech Provinces or steadily about 100 percent, while in Slovakia the plan was overfulfilled by 125.6 percent. Deliveries to market of lard were 115.8 percent of the plan. The plan for the production of artificial, edible fats in the Czech Provinces was overfulfilled by 34.4 percent, while the situation in Slovakia is somewhat worse: there the plan was fulfilled by only 96.7 percent. Purchases of lard in the Czech Provinces were 121.1 percent of the plan, and 143.9 percent in Slovakia. This had its favorable effect on the fulfillment of the plan for deliveries to market. Imports of lard in the Czech Provinces did not proceed as planned, since the expected quantity was delivered only by 37 percent. A total of 255 tons of lard were imported in Slovakia.

(6) Sugar and syrups

Deliveries of sugar, syrup, and candy to market were steady, even though only 86.1 percent of the planned quantity in the Czech Provinces, and 73.5 percent in Slovakia was actually delivered. Exports of sugar from the Czech Provinces attained a record level of 623 percent fulfillment, while exports of chocolate candy dropped to 20.8 percent and of non-chocolate candy to 62.6 percent. No export of sugar from Slovakia was planned and no candy was exported, although 137 tons of nonchocolate candy and 63 tons of chocolate candy were to have been exported.

(7) Potatoes

Potato purchases total 69.2 percent of the plan in the Czech Provinces, and 3,695 tons of late potatoes were purchased in Slovakia. The fact that

CONFIDENTIAL

the plan was not fulfilled is explained by the fact that the purchase goals were not determined correctly for individual periods of time or for the agricultural year. Consumers were supplied, however, quite consistently throughout the third quarter of 1949.

(8) Legumes and nuts

The purchase plan for legumes was fulfilled only by 16.6 percent in the Czech Provinces, and by 37.2 percent in Slovakia. No legumes were imported either in the Czech Provinces or in Slovakia. Legumes were issued only for common feeding during the third quarter.

(9) Fruit and fruit products

Deliveries to market totaled 83.5 percent of the plan in the Czech Provinces, and only 71.1 percent in Slovakia. The plan for fruit products was fulfilled by only 48.5 percent in the Czech Provinces and by 57.1 percent in Slovakia. Fruit imports to Czechoslovakia have not proceeded according to plan for several years.

(10) Vegetables and vegetable products

The plan for deliveries to market was fulfilled by 81.4 percent in the Czech Provinces and by 80 percent in Slovakia. The market was supplied generally quite steadily except for a few regional shortages. These were dealt with very quickly.

(11) Citrus fruits and tomatoes

The planned imports of lemons in the third quarter of 1949 were not realized. The delivery of tomato products to market was not made according to plan either in the Czech Provinces or in Slovakia.

(12) Grain and grain products

Purchases of bread grains totaled 102.5 percent of the plan in the Czech Provinces and 81.5 percent in Slovakia, while purchases of *fodder* grains totaled 66.8 percent of the plan in the Czech Provinces and 81.2 percent in Slovakia. Even though purchases of oats amounted to 332 percent of the planned quantity in the Czech Provinces, the total amount of oats is very small compared to that of barley, so that the over-all plan fulfillment for feed grain is small. Imports of wheat in the Czech

CONFIDENTIAL

CONFIDENTIAL

Provinces totaled 49,163 tons and 15,443 tons in Slovakia, although these imports were not planned in either part of the country. Products of mills and bakeries totaled about 100 percent of the plan in the Czech Provinces, and only 63.1 percent in Slovakia. In spite of this, however, deliveries to market were steady and totaled 79.7 percent of the plan in the Czech Provinces, and 100.3 percent in Slovakia.

(13) Cocoa and chocolate

The production plan in the Czech Provinces was fulfilled by 108.8 percent, and by 65.8 percent in Slovakia. Deliveries to market totaled 79.5 percent of the plan, and only 47.8 percent in Slovakia. Imports of cocoa beans to the Czech Provinces did not reach even 25 percent of the planned quantity, nor 40 percent in Slovakia.

(14) Beverages

The output plan for beer was slightly overfulfilled in the Czech Provinces during the third quarter of 1949, and stayed around 100 percent in Slovakia. Consumption of brandies in the Czech Provinces reached 135.5 percent of the plan, of liqueurs 71.7 percent, while the consumption of brandies in Slovakia did not even reach 70 percent of the planned amount, and of liqueurs it was 92.1 percent. Only 10 percent of the planned quantity of grape wine was delivered to market in the Czech Provinces, while Slovakia surpassed the plan by 43.2 percent. Deliveries of coffee beans to market were very low: they were only 21.2 percent in the Czech Provinces and 5 percent of the planned quantity in Slovakia.

(15) Miscellaneous

The production plan for yeast in the Czech Provinces and vinegar in Slovakia were fulfilled. The level of production of all other items in this category is the same. The over-all fulfillment in this group is 132.5 percent in the Czech Provinces and 79.8 percent in Slovakia.

CONFIDENTIAL

CONFIDENTIAL

3. Fulfillment of the Purchase Plan

The purchase plan was fulfilled by a total of 87 percent in the whole country in the third quarter of 1949. It is broken down as follows:

<u>Region</u>	<u>Products</u>	<u>Total Purchased in Thousands of Crowns</u>		<u>Percent Fulfillment</u>	
		<u>Actual Prices</u>	<u>Planned Prices</u>	<u>III Quarter</u>	<u>II Quarter</u>
Czech Prov- inces	Plant	3,214,354	3,011,126	84.9	91.4
	Animal	2,842,734	2,950,459	83.8	93.5
	Total	6,057,088	5,961,585	84.4	93.2
Slovakia	Plant	1,382,741	1,245,219	91.3	287.3
	Animal	701,352	868,276	102.8	72.7
	Total	2,084,093	2,113,495	95.8	98.9
Total	Plant	4,597,095	4,256,345	86.7	119.8
	Animal	3,544,086	3,818,735	87.4	90.3
	Total	8,141,181	8,075,080	87.0	94.1
Total, II Quarter		5,126,561	5,814,421	-	94.1

The plan was fulfilled in individual months by the following percentages:

<u>Region</u>	<u>Products</u>	<u>September</u>	<u>August</u>	<u>July</u>
Czech Prov- inces	Plant	143.0	108.9	23.0
	Animal	96.9	105.4	103.0
	Total	120.7	107.2	60.2
Slovakia	Plant	63.9	168.9	40.3
	Animal	91.9	103.7	97.4
	Total	73.0	132.5	63.9
Total	Plant	114.2	123.0	27.9
	Animal	95.8	102.9	105.8
	Total	106.8	114.1	61.1

The purchase plan was fulfilled by the following percentages in individual quarters of 1949:

<u>Region</u>	<u>Products</u>	<u>III Quarter</u>	<u>II Quarter</u>	<u>I Quarter</u>
Czech Provinces		84.4	93.2	96.4
Slovakia		95.8	98.9	86.1
Total		87.0	94.1	94.3

The purchase plan was overfulfilled by more than 25 percent in the following items: Czech Provinces: oats and country butter; Slovakia: wheat, all fruit, whole milk delivered directly to consumers, eggs, pork, raw lard from domestic slaughtering, and raw lard from small commercial slaughtering.

- 6 -
CONFIDENTIAL

CONFIDENTIAL

The purchase plan was fulfilled by less than 75 percent in the following items: Czech Provinces: barley, all feed grains, oilseeds, potatoes, legumes, and all fruit; Slovakia: maize, oats, oilseeds, legumes, country butter, beef, and veal.

The most important vegetable items in Slovakia are wheat, rye, and all fruits, and the most important animal products are milk, eggs, pork, and raw lard. The weakest items are maize, oats, oilseeds, and legumes, and among these animal products, country butter and veal.

4. Fulfillment of the Import Plan

The import plan was fulfilled by a total of 131.4 percent in the whole country in the third quarter of 1949. It is broken down as follows:

Region	Total Imported in Thousands of Crowns		Plan Fulfillment in Percent in	
	Actual Prices	Planned Prices	III Quarter	II Quarter
Czech Provinces	1,923,004	1,647,428	133.4	79.4
Slovakia	337,375	265,032	138.1	83.9
Total	2,260,379	1,912,460	134.1	80.3
Total, II Quarter	2,949,259	1,889,892	-	80.3

The plan was fulfilled by the following percentages in individual months:

Region	September	August	July
Czech Provinces	91.8	61.6	129.2
Slovakia	40.0	64.7	105.5
Total	79.5	62.4	124.3

The import plan was fulfilled by the following percentages in individual quarters of 1949:

Region	III Quarter	II Quarter	I Quarter
Czech Provinces	133.4	79.4	61.9
Slovakia	138.1	83.9	48.8
Total	134.1	80.3	59.2

CONFIDENTIAL

CONFIDENTIAL

The import plan was exceeded by more than 25 percent in the following goods for the third quarter of 1949:

Czech Provinces: butter, eggs, all meat, fresh water fish, salt water fish, fish oils, total oilseeds, tea, salt, alcoholic beverages;
Slovakia: dried whole milk, butter, maize.

The import plan was fulfilled by less than 75 percent in the following goods:

Czech Provinces: dried whole milk, poultry meat, canned fish, lard, palm kernels, copra, peanuts, sunflower seed, almonds, wine grapes, raisins, fresh vegetables, rice, cocoa beans, coffee beans, grape wine, solid feeds, and oil cake;
Slovakia: fresh water fish, salt water fish, canned fish, palm kernels, copra, peanuts, sunflower seed, soy beans, total oilseeds, almonds, raisins, lemons, cocoa beans, coffee beans, tea, and ground paprika.

The items which furthest exceeded the import plan in the Czech Provinces were butter, eggs, all meat, fish and fish products, fish oils, tea, salt, and alcoholic beverages. The lowest plan fulfillment was shown by oilseeds, palm kernels (32.2 percent), peanuts (37.3 percent), and sunflower seeds (16.1 percent). The fact that 49,163 tons of wheat were imported, although not planned, had its effect in raising the level of fulfillment of the import plan.

The items which furthest exceeded the plan in Slovakia were dried milk, butter, eggs, pork, beef, fish oils, rice, fodder maize, and the unplanned importation of 15,443 tons of wheat. The lowest plan fulfillment was shown by salt water fish (4.5 percent), palm kernels (0 percent), peanuts, sunflower seeds, and soybeans (0 percent), almonds (40 percent), raisins (0.6 percent), lemons (0 percent), coffee beans (1.4 percent), and tea (1.4 percent).

- 8 -

CONFIDENTIAL

CONFIDENTIAL

5. Fulfillment of the Export Plan

The export plan was fulfilled by a total of 100.8 percent in the whole country in the third quarter of 1949. It is broken down as follows:

<u>Region</u>	<u>Total Exported in Thousands of Crowns</u>		<u>Plan Fulfillment in Percent in</u>	
	<u>Actual Prices</u>	<u>Planned Prices</u>	<u>III Quarter</u>	<u>II Quarter</u>
Czech Provinces	267,128	182,850	127.6	93.4
Slovakia	15,290	11,558	15.0	59.3
Total	282,418	194,408	100.8	91.1
Total, II Quarter	524,453	559,417	-	91.1

The export plan was fulfilled by the following percentages in individual months:

<u>Region</u>	<u>September</u>	<u>August</u>	<u>July</u>
Czech Provinces	124.7	137.4	120.7
Slovakia	10.5	104.9	149.4
Total	87.4	136.3	121.9

The monthly fulfillment of the purchase [sic] plan is not decisive, since not all items were included in the figures for individual months. For this reason, the figures on the fulfillment of the export plan are estimates.

The export plan was fulfilled by the following percentages in individual quarters of 1949:

<u>Region</u>	<u>III Quarter</u>	<u>II Quarter</u>	<u>I Quarter</u>
Czech Provinces	127.6	93.4	76.7
Slovakia	15.0	59.3	93.5
Total	100.8	91.1	77.7

The export plan was exceeded by more than 25 percent in refined sugar, chocolate, and beer, in the Czech Provinces, and by no item in Slovakia.

- 9 -

CONFIDENTIAL

CONFIDENTIAL

The export plan was fulfilled by less than 75 percent in the following goods for the third quarter of 1949:

Czech Provinces: chocolate and nonchocolate candy, fresh vegetables, dried vegetables, fruit, malt extracts, nonperishable baked goods, and mineral waters;

Slovakia: everything except malt.

Most important was the export of 623 percent of the planned amount of refined sugar from the Czech Provinces. Exports from Slovakia fell down completely, and only chocolate and malt were sent out in any quantity.

6. Fulfillment of the Production Plan

The production plan was fulfilled by a total of 89.7 percent in the whole country in the third quarter of 1949. It is broken down as follows:

<u>Region</u>	<u>Total Production in Thousands of Crowns</u>		<u>Plan Fulfillment in Percent in</u>	
	<u>Actual Prices</u>	<u>Planned Prices</u>	<u>III Quarter</u>	<u>II Quarter</u>
Czech Provinces	9,214,025	9,988,562	92.9	94.8
Slovakia	1,985,815	1,594,871	73.7	88.4
Total	11,199,840	11,583,433	89.7	93.8
Total, II Quarter	11,430,786	11,011,466	-	93.8

The production plan was fulfilled by the following percentages in individual months:

<u>Region</u>	<u>September</u>	<u>August</u>	<u>July</u>
Czech Provinces	92.0	99.1	78.0
Slovakia	79.8	82.4	80.7
Total	89.9	95.0	78.3

The production plan was fulfilled by the following percentages in individual quarters of 1949:

<u>Region</u>	<u>III Quarter</u>	<u>II Quarter</u>	<u>I Quarter</u>
Czech Provinces	92.9	94.8	99.6
Slovakia	73.7	88.4	63.8
Total	89.7	93.8	93.6

CONFIDENTIAL

CONFIDENTIAL

The production plan was exceeded by more than 25 percent in the following goods for the third quarter of 1949:
 foll
 Czech Provinces: skimmed milk, buttermilk, thickened milk, smoked fish, margarine, honey, fruit syrups, rye flour, must, mineral waters, yeast;

Slovakia: equalized [sic] milk, skimmed milk, butter, cheeses, cottage cheese, buttermilk, margarine, shelled peas, wheat flour, bar chocolate, fruit wine, and soda waters.

The production plan was fulfilled by less than 75 percent in the following goods for the third quarter of 1949:

Czech Provinces: cream, canned poultry, chocolate candy, shelled peas, crushed fruit, stewed fruit, candied fruit, dried fruit, frozen fruit, dried and frozen vegetables, sauerkraut, canned cucumbers, tomato juice, groats, millet, cocoa powder, alcoholic beverages, and coffee substitutes;

Slovakia: special dairy products, smoked and boiled meat products, smoked meat, canned poultry, smoked and marinated fish, 100% feed fat, fruit syrups, chocolate candy, crushed fruit, frozen fruit, dried and frozen vegetables, sauerkraut, canned cucumbers, canned tomatoes, bakery products of wheat and rye, oat flakes, ^{edible} paste products, confectioners' products, cocoa powder, brandies, must, soft drinks, mineral waters, coffee substitutes, ground paprika, soup preparations, and malt extracts.

The most important goods whose production plan was overfulfilled in the Czech Provinces was fats (134.4 percent), fish and fish products (143 percent), and ^{m. see above} ~~a group of various~~ foods (132.5 percent). The lowest plan fulfillment was shown by fruit products (48.5 percent), vegetable products (51.5 percent), and cocoa and chocolate (66.8 percent).

The best showing in Slovakia was made by dairy products (142.1 percent) and cocoa and chocolate (108.8 percent), and the worst output was

- 11 -
CONFIDENTIAL

CONFIDENTIAL

in meat products (23.4 percent), fish products (24.9 percent), sugar and syrups (55.7 percent), fruit products (57.1 percent), and vegetable products (39 percent).

7. Fulfillment of the Reserve Plan

The plan for formation of stocks was fulfilled by a total of 62.5 percent in the whole country for the third quarter of 1949. It is broken down as follows:

<u>Region</u>	<u>Date of Reserves</u>	<u>Reserves in Thousands of Crowns</u>		<u>Plan Fulfillment in Percent</u>
		<u>Actual Prices</u>	<u>Planned Prices</u>	
Czech Provinces	1/7	3,331,730	3,594,011	98.5
	30/9	3,331,752	2,287,092	114.4
Difference	-	- 22	1,306,919	-116.0
Slovakia	1/7	512,722	462,352	215.6
	30/9	904,887	847,480	259.5
Difference	-	-192,165	- 385,128	-343.7
Total	1/7	3,844,452	4,056,363	105.0
	30/9	4,236,639	3,734,572	131.0
Difference	-	- 392,187	321,791	- 62.5

The plan for formation of stocks was not fulfilled. Stocks in the Czech Provinces fell by 16 percent in comparison with the plan, while in Slovakia they rose by 243.7 percent of the plan. The plan fell short of fulfillment in the whole country by 37.5 percent.

8. Fulfillment of the Delivery Plan

The plan for the delivery of foods to market was fulfilled by a total of 86.1 percent in the whole country for the third quarter of 1949. It is broken down as follows:

<u>Region</u>	<u>Total Delivered to Market in Thousands of Crowns</u>		<u>Plan Fulfillment in Percent</u>	
	<u>Actual</u>	<u>Planned</u>	<u>III Quarter</u>	<u>II Quarter</u>
Czech Provinces	13,771,012	12,167,174	84.8	103.4
Slovakia	4,444,219	3,274,739	97.2	85.9
Total	18,215,231	15,441,813	86.1	99.9
Total, II Quarter	19,794,554	15,953,883	-	99.9

- 12 -

CONFIDENTIAL

CONFIDENTIAL

The delivery plan was fulfilled by the following percentages in individual months:

<u>Region</u>	<u>September</u>	<u>August</u>	<u>July</u>
Czech Provinces	88.5	94.4	101.3
Slovakia	80.9	83.9	87.8
Total	87.0	91.1	98.0

The delivery plan was fulfilled by the following percentages in individual quarters of 1949:

<u>Region</u>	<u>III Quarter</u>	<u>II Quarter</u>	<u>I Quarter</u>
Czech Provinces	83.4	103.4	94.2
Slovakia	94.3	85.9	74.8
Total	86.1	99.9	89.9

The plan for deliveries of foods to market was exceeded by more than 50 percent in the following goods for the third quarter of 1949:

Czech Provinces: whole milk, cheeses, evaporated milk, fresh water fish, salt water fish, canned fish, 100% feed fat, honey, fruit syrups, apricots, dwarf cherries, bullace and greengage plums, currants, strawberries, lettuce, spinach, early cauliflower, garlic, green paprika, early cabbage, yeast, malt extracts, and canned poultry;

Slovakia: whole milk directly to consumers, skimmed milk, cheeses, cottage cheese, buttermilk, eggs, fish products and canned fish, honey, apples, wild cherries, apricots, pears, plums, onions, early cauliflower, early carrots, celery, pickling cucumbers, green paprika, canned cucumbers, late cabbage, wheat and rye flour, soda water, and vinegar.

The plan for deliveries of foods to market was fulfilled by less than 50 percent in the following goods for the third quarter of 1949:

Czech Provinces: skimmed milk, cream, veal, horse meat, mutton, goat meat, goose and other poultry, marinated fish, fish

CONFIDENTIAL

products, pork, lard, shelled peas, pears, wild cherries, plums, wine grapes, crushed fruit, stewed fruit, candied fruit, early kohlrabi, late kohlrabi, late cabbage, late cauliflower, early carrots, late carrots, cucumbers for salad and pickling, melons, pumpkins 17, green beans, green peas, lemons, canned tomatoes, tomato juice, groats, oat flakes, rice, millet, grape wine, coffee substitutes, coffee beans, ground paprika, and ~~additions~~ ^{to} dough;

Slovakia: veal, horse meat, marinated fish, late potatoes, legumes, bullace and greengage plums, currants, gooseberries, wine grapes, spinach, late kohlrabi, late cauliflower, late and early cabbage, parsley, late carrots, melons, pumpkins 17, leeks, beets, green beans, tomatoes, bakery products of wheat and rye, oat flakes, cocoa powder, brandies, soft drinks, coffee beans, tea, spices, and soup preparations.

The items which furthest exceeded the plan in the Czech Provinces were eggs (131.1 percent), fish and fish products (125.3 percent), fats (108.3 percent), potatoes (118.3 percent), and grain products (100.3 percent), while the lowest plan fulfillment was shown by meat and meat products (61.7 percent), legumes and nuts (70.9 percent), citrus fruits and tomatoes (52.4 percent), and miscellaneous (63.7 percent).

The items which furthest exceeded the plan in Slovakia were milk and milk products (167.9 percent), eggs (425.2 percent), fats (225.6 percent), and beverages (118.8 percent), while the lowest fulfillment was in meat and meat products (64.5 percent), fish and fish products (71.2 percent), potatoes (71.4 percent), legumes and nuts (31.9 percent), citrus fruit and tomatoes (13.9 percent), cocoa and chocolate (47.8 percent), and miscellaneous (70.5 percent).

9. Fulfillment of the Food Ration Plan

The following table shows the percent fulfillment of the food ration for 1949, by quarters, as measured in caloric value of food:

<u>Consumers</u>	<u>I Quarter</u>	<u>II Quarter</u>	<u>III Quarter</u>
0-2 years	96.47	93.93	89.37
2-6 years	96.20	93.93	88.52
6-12 years	97.97	95.72	95.11
12-20 years	97.37	94.29	81.85
20 years and above	100.37	94.72	90.27
Workers	99.77	94.83	88.73
Heavy workers	100.45	96.14	89.01
Very heavy workers	103.88	98.13	92.27
Surface miners	126.71*	107.83	91.40
Underground miners	126.71*	100.12	91.45
Pregnant women	98.04	94.73	92.46
Nursing mothers	96.95	97.79	115.85

* Average

The food ration plan is in force only in the Czech Provinces.

10. The plan for common feeding is being worked out by Division II/lc.

11. Fulfillment of the Unrationed Sales Plan

The unrationed sales plan was fulfilled by the following amounts during the third quarter of 1949:

<u>Region</u>	<u>Sales in Thousands of Crowns</u>		<u>Fulfillment in Percent of the Total Quantity of Derationed Goods</u>	
	<u>Actual Prices</u>	<u>Planned Prices</u>	<u>III Quarter</u>	<u>II Quarter</u>
Czech Provinces	3,043,177	504,711	55.9	48.5
Slovakia	113,853	21,604	2.4	5.3
Total	3,177,030	526,315	58.3	53.8
Total, II Quarter	3,240,646	582,095	-	53.8

CONFIDENTIAL

CONFIDENTIAL

The unrationed sales plan was fulfilled by the following percentages in individual months:

<u>Region</u>	<u>September</u>	<u>August</u>	<u>July</u>
Czech Provinces	72.1	60.0	73.5
Slovakia	22.1	30.3	10.1
Total	67.4	57.3	51.6

The unrationed sales plan was fulfilled by the following percentages in individual quarters of 1949:

<u>Region</u>	<u>III Quarter</u>	<u>II Quarter</u>	<u>I Quarter</u>
Czech Provinces	55.9	48.5	-
Slovakia	2.4	5.3	-
Total	58.3	53.8	36.4

The unrationed sales plan was exceeded by more than 25 percent in the entire country in the following goods: canned poultry, fish canned in oil, nonchocolate candy, almonds, and dried plums.

The plan was fulfilled by less than 75 percent in the entire country in the following goods: hard cheeses, meat products, ham, poultry, canned meat, sugar export and bridge [sic], raisins, marmalades, jams, candied fruit, rice, nonperishable baked goods, trademarked wine, alcoholic beverages, coffee, tea, and nuts.

The third quarter shows a ^{moderate} ~~small~~ improvement over the second quarter of 1949.
